CATALOOCHEE SKI TRIP

On Friday January 2 We left the church at a little after 6:45AM and had good trip there. When we got there it was cold (duh). When we got done with the registration forms, we got out on that hill!

Some of us went to ski school or snowboard school, while others went straight to the slopes. Some of us were out of practice (I now I was) but it did not take us long to catch on. I know we all wrecked at least one time but we went down in style. One scout was even spotted hugging a tree on Rock Island Run.

Upper Omigosh, Upper Snowbird, Lower Snowbird, Alley Cat, Cat Cage Terrain Park, Short 'N' Sweet, and Turkey Trot were all closed, but we had plenty of other slopes to keep us busy. The most challenging for me was Rock Island Run and Lower Omigosh.

I hear the ski police were kept busy throughout the day. The Rock Island Run was hard, we warmed up in the loge because we were covered in snow. The lodge was warm and comfortable, and a good place eat and warm up and watch other people ski. The snow boarding show from there was good... skid... bump... crash!

The weather was good and cold. We left Cataloochee at 4:45pm and got back at about 7:10pm. We had fun and there were no major accidents or broken bones!
